Open for Business Fund Grant Recipients

Wells Fargo is donating approximately \$400 million to help small businesses impacted by COVID-19 to keep their doors open, retain employees, and rebuild. Through the [Open for Business Fund](#), Wells Fargo is supporting Community Development Financial Institutions and nonprofits that provide needed capital, technical support, and long-term resiliency programs for small businesses, particularly those owned by underrepresented individuals as part of fostering an inclusive recovery. If you are a small business owner seeking support, visit wellsfargo.com.shoplocal or explore this list of Open for Business Fund grant recipients.

Please note: Nonprofits on this list received grants at different times since our launch in July 2020. Some organizations may have funding left; others may have already deployed their full grant already as the goal was to help as many small businesses as possible, as fast as possible. We will continue to award new grants throughout 2021 and encourage you to check back for updates or explore other nonprofits in your area.
